# Put Intelligent Technologies to Work for You

Connecting your business to the technology resources you need.

Unlike other partners who only offer one or two business solutions, Intelligent Technologies, Inc. specializes in a wide variety of systems and additionally offers an array of networking services and expertise.

Whether you want to better manage your finances, or your customers, make it easier for your staff to communicate and collaborate, are in need of networking assistance, or all of the above, we have the tools and expertise to help you reach your goals.

Since opening our doors 25 years ago, we have helped hundreds of organizations utilize the business solutions that we offer to streamline their processes and improve their productivity.

Each of our consultants are seasoned, friendly professionals who possess on average 12 years' of experience working with the products they support, which means that they have the knowledge and creativity needed to help you make the most of your business investment.

## TOP REASONS HUNDREDS OF COMPANIES CHOOSE INTELLIGENT TECHNOLOGIES, INC.

1.

The relationship we build with each of our clients goes far beyond being a simple solutions vendor. We strive to be a trusted business partner and are committed to treating each one of our clients regardless of their size with the same stellar level of customer service and respect.

2.

You can rest easy knowing that we'll be there with you throughout the entire selection and implementation process. Our experts are always available to answer any questions you may have, or to brainstorm appropriate, cost-effective solutions to any issues that may arise.

3.

Our commitment to your company doesn't end once your new system is up and running. In fact, it has just begun. We offer a wide variety of services for existing clients, including training, ongoing tech support and educational opportunities, such as webinars, seminars and timely email communications to keep you up-to-date on the latest news that's relevant to you.

4.

Our portfolio of customers spans a vast array of industries including, professional services, manufacturing, distribution and logistics, financial services and pharmaceuticals/medical technology, to name a few. But, perhaps the industry we are best known for serving is hospitality, in particular franchises.

5.

Over our more than 25-year history, we have built strong relationships with many leading technology vendors, including Microsoft and AT&T. Specifically, we have obtained a Silver Small and Midmarket Cloud Solutions competency from Microsoft and are an AT&T Partner Exchange program participant. What does this mean to you? It means, we have gone through rigorous training to acquire the deep product knowledge needed to make your project a success.
